

Our philosophy is that all projects are unique, but inherently the same. That desired project outcomes are achievable, without compromise on quality or safety.

Verification of Construction Completion, Integrated Schedule Reviews, Constructability Reviews, Provision of Construction Management, Auditing of Processes and Procedures, Preservation Management, Execution Strategies.

Management and Execution of Commissioning Activities for Major Projects, Streamlining of Existing Commissioning Plans and Activities, Schedule review and optimisation, Development & implementation of Commissioning Strategies, Execution Philosophies and plans.

Established in 2014, PETROWORLD is a Project Risk Assurance (PRA), Commissioning & Start-Up (CSU)/Operational Readiness (OR) company specialising in Oil & Gas, Infrastructure and Energy projects..

From Assess to Operate, whether it is managing or executing, we have the experience, the processes and the people to deliver first time, every time.

OUR PHILOSOPHY

- › Our philosophy is that all projects are unique, but inherently the same. That desired project outcomes are achievable, without compromise on quality or safety.
- › We believe in building long-term partnerships with clients & contractors based on each other's capabilities and responsible corporate behaviours.
- › We respect people for who they are and for their values, opinions, differences, knowledge, skills and experience as individuals and as valued team members and foster a workplace free of discrimination and harassment.
- › We utilise a system based process approach to all projects, which has been proven to deliver the best results. Application of quality over quantity in all aspects from assess to operate.

OUR VISION

We add value to our projects. Effective and efficient project management through the application of tested execution methodologies
